OUR KEY SELLING POINTS

We recognise and understand that even small haulage and courier operations can have diverse insurance needs. Haulage eSolutions caters for risks ranging from the straightforward to the relatively complex.

Being solely available online, it is quick and easy to obtain quotes and issue documentation in your office. From initial login to the production of a policy schedule can take as little as 3 - 4 minutes to complete.

Mid-term adjustments and renewals are all handled online too, saving you time and enabling speedy response to your clients' needs.

The online system is supported by a dedicated team of underwriters who will handle any queries or business that does not fit the online proposition, ensuring that all your clients' needs can be met by RSA Marine.

Our (offline) Freight Solutions policy is designed for businesses with large fleets and/or involved in Freight Forwarding or storage of Cargo.
